The World of DRAKENGARD #1

- MIDGARD -

Midgard is the name of the world and to understand the state of the world, we must go back in time to an era that we, on Earth, refer to as the "Age of Mythology".

During this period, the gap between Humans and the Gods got steadily smaller and smaller. The Gods, afraid of the sheer number of lesser beings - to which they referred to as "mosquitoes" - eventually retreated from Midgard, which was left unbalanced.

Initially, to make up for the disequilibrium caused by God's disappearance, children were used to create the "Seal of the World".

However, as time went on, the world fell further into chaos and eventually, the true state of the world became so broken that the sky distorted and was stained with a permanent crimson red hue.

By this time, women were branded at random to be used as the "seed" of the World Seal, which eventually became the "Goddess Seal", thereby allowing the flora and fauna of world to continue on living.

... However, this peace was not to last.

The World of DRAKENGARD #2

- SITUATION OF THE WORLD -

Midgard is currently in the midst of a war

This war is considered to be the final war with the fate of the world on the line

Human society has been divided into two: the Anti-Empire United Nations Forces (known as the Union for short) and the new sovereign Empire.

The Union fights to keep the old traditions of the world, such as the existence of the Goddess and the Seals alive whereas the Empire wants to abolish them.

The fate of the world rests on the Goddess as, without her, the world would return to its original state of chaos, which is exactly what the Empire plots

Midgard is somewhat different from our own world, however, to make a analogy, it is similar to Europe during the Middle Ages, with the addition of magic, demi-humans, monsters and dragons

Many of these make up a large portion of the Empire's army and, out of fear of the Empire, they have been ejected from the majority of human society

The World of DRAKENGARD #3

- THE CULT OF WATCHERS - (PART 1)

Is the name of the aforementioned religious organization that is tied to the Empire, also known as the "Church of Angels".

It is believed that the faith originated in a certain decayed palace, following these fundamental teachings:

*Speak not the Watchers
Write not the Watchers
Draw not the Watchers
Sculpt not the Watchers
Sing not the Watchers
Call not the Watchers' name
Amen.*

That is all that has been permitted as regards the recording of information concerning the Cult of Watchers, as even the interpretation and handing down of rituals, teachings and the like is prohibited, but to a single person, the Bishop and/or High Priestess of the Cult itself.

The World of DRAKENGARD #3

- THE CULT OF WATCHERS - (PART 2)

Originally, only believers and priests or priestesses dedicated to the cult could be in positions of power, but this appears to have changed, given the background of the newest Bishop/High Priestess appointed after Fey.

The term Bishop can be used for both male or female leaders of the cult, however, there are slight differences in how the leader of the cult, and the Empire too, essentially, is referred to, depending on where in Midgard the person who speaks of them comes from.

The most basic belief of the Cult would be the Angels or Watchers, but not even believers know what these are.

The Empire's banner is known as the "Three Eyed Gemini," but it has been said that the depicted twins are not Angels/Watchers, but actually represent the leader of the cult, waiting for the Angels/Watchers reappearance in Midgard, where it is said they will fly down on angelic wings, to return after fleeing the world so very long ago.

As the twins share an eye, this is likely the reason behind the Cult of Watchers' name.

The World of DRAKENGARD #4

- RED EYES - (PART 1)

A characteristic of the followers of the Cult of Watchers that is common across the entirety of the sovereign Empire.

What could it mean?

If one makes a general conclusion based on the fact it is contained within the Empire, it could be considered some form of epidemic.

When infected, regardless of whether the carrier is human or demi-human or monster, they will have irises red as blood. There are no asymptomatic carriers of the "Red Eye infection."

Elves are immune to the infection, as are higher beings, known as Songstresses, but it is as yet unknown whether a Goddess of the Seal can become infected.

Symptoms of the infection can, and often will, appear in stages

The World of DRAKENGARD #4

- RED EYES -

(PART 2)

Stages of the Red Eye infection are as the following:

First stage: Impaired judgement forcing victims to follow the Empire's teachings, regardless of their will.

Second stage: Pain reception numbs. This is often considered to be one of the Empire's sources of military strength.

Third stage: Incapable of feeling pain, absolute obedience and unbreakable concentration on targeted foes.

Other symptoms outside of these three main stages include mental deterioration, speech impairment but despite all of this information - the method of infection and the incubation period remains unknown outside of it clearly being connected to the Cult of Watchers and the Empire itself and due to the war, many have fled to the "stronger" Empire despite the Anti-Empire United Nations Forces efforts.

The only reliable fact regarding this epidemic is that any infected will essentially turn into puppets of the Empire.

The World of DRAKENGARD #5

- THE STORY OF GLORY'S BANE - (PART 1)

This sword belonged to a royal family whose kingdom was destroyed by an evil dragon. The vengeful rage of the family smolders deep within the blade, hidden by the sword's gaudy beauty.

Whoever takes up the sword will suffer from the family's bitter curse. Evil dreams will haunt the victim's nights till he is overtaken by a baleful death.

The king of a certain small nation was awestruck by the sword's beauty and took it for his own. But he, too, became plagued by nightmares, and one day his life and kingdom were taken from him by dragons.

There is but one means to escape the sword's curse: slay the same dragon that killed the royal family. But no man has yet possessed the strength to cheat fate and break the spell.

The World of DRAKENGARD #5

- THE STORY OF GLORY'S BANE - (PART 2)

Once upon a time, on a warm spring day, an evil dragon attacked a palace. He killed the royal family, the palace guard, and even the court jester, just because he felt like it. Satisfied with his work, the dragon settled down for a nap in the throne room, and it was then that a little girl walked in, holding a sword.

She shook the dragon awake.

She asked, "Could you tell me where the king is, please? I have to kill him," rather taken back, the dragon replies, "I've already eaten him." hearing this, the little girl bowed politely and said "Thank you very much!" puzzled by her appreciation, the dragon asked, "Why do you thank me, little girl?"

The girl replied, "The king you ate was not the true king. My dead mummy told me that he took the palace from my daddy. That's why I had to kill him - to get my palace back!", the little girl wasn't lying either. She really was the rightful heir to the throne. The girl continued, "Now I'm queen, I'm going to kill all the people who let my daddy die!" the dragon laughed and said "Very well, my little queen. Then I shall bestow my power upon you and your sword."

So they exchanged their beating hearts.

Then the little girl took her sword, slaughtered everyone,
and lived happily ever after.

The World of DRAKENGARD #6

- CAIM & FURIAE -

Caim and Furiae are the heirs to the Kingdom of Caerleon.

Their mother was rumored to have been a former Goddess that eloped with their father King Gâp and eventually became his Queen before bearing him his children, first Caim who is the true heir to the throne of Caerleon.

He is typically called "Lord Caim" much to his disdain and prefers to focus on his sword training with his childhood friend Inuart, son of Ipris.

Furiae was promised to Inuart in order to prove and keep Ipris' family's loyalty to the Kingdom of Caerleon and the Union.

To prove their status as royalty, both siblings wear a bracelet with a small royal coin insignia on it.

Caim is secretly vicious and bloodthirsty, despite his quiet personality. Furiae has a brother complex but still follows along with her family's promise to Ipris and does love Inuart in a way, but more similar to how one loves a sibling.

However, their peaceful lives together were disrupted due to the war.
